Crucial Confrontations Training gives you the tools to handle life's most difficult and important conversations: to hold another person accountable—face-to-face—for a broken promise, a violated expectation, or bad behavior. In this course, you'll learn how to:

- * Know when and how to speak up about a problem
- * Describe the gap between what was expected and was observed
- * Motivate to action
- * Make it easy to keep commitments

Whether they take place at work or at home, with the skills you'll learn in this course you'll never have to worry about the outcome of another crucial confrontation again!
